Arrears of taxes to be collected Rs 20,048

In the present case the estimate is for Rs 6000/- The MC pray for a grant of Rs 3000/- towards the laying of the road in Nandipet. This is a ML road and not a State Trunk Road. If the arrears of taxes amting to Rs 20,048 are collected, the MC be can undertake the work out of its own funds.

It further, this MC has separately asked for a grant of Rs 95,000 for the Drainage scheme & half the cost of the water supply improvements at this place. This would be a heavy amount. The drainage & water supply schemes are comparatively more important than laying the Nandipet road, which should be financed entirely out of the MC funds.

If further even if the estimate for Rs 6000/- is sanctioned, the work will be allowed to be executed by municipal agency

It will have to be estimated by the P.W.D. having regard to the heavy traffic involved & the technical skill required for doing this work.

The reserve under Improvement grant is now about Rs 2,000/-

In view of the above facts, it is for orders if this request may not be considered along with those of the Govt for water supply & drainage to the Tumkur Town.

Re the tarring of old mandipet road in Tumkur Town

Sir,

In forwarding herwith, in original, the letter received from the President, Town Municipal Council, Tumkur on the above subject, I have the honor to state as follows -

The President states that an estimate for Rs 6,000/- prepared in this connection was approved by the Council at their meeting held on 3-3-1941 and the Executive Engineer who was again consulted is stated to have agreed that in view of the rise of prices, tarring of the road may be limited to 18feet width, providing stone pitching for the remaining width of the road

As the road was getting awfully bad and to save money on petty repairs, my predecessor Mr G Sundara Rao, B A , had during the inspection of the town, observed that the mandi street required to be tarred and accordingly this was proposed in this office letter No A6 C 235/41-42 dated 16-9-1941 addressed to the Director of Public Health as an item requiring Government grant to the extent of the half the cost of the estimate viz Rs 3,000/- (Estimate Rs 6,000/-)

But no grant has been sanctioned by Government for this work The President now seeks that sanction of Government may be obtained to the estimate and to the grant of half the cost of the estimate as a Town Improvement grant and to meet the quota of the Municipality viz Rs 3000/- in this behalf

In the circumstances, stated above, I request that orders of Government may be kindly obtained in the matter

I have the honor to be,
sir,

Subject

Sir

Reference your No A6 C 1573/41-42 dated 21-5-1942 forwarding letter No L 10955/L1 50-41-137 dated 16-5-1942 from the Secretary to Government in the Law Department to the Deputy Commissioner in the matter of the concreting of old Nandipet Road

I have the honour to state that,

(1) the Estimate is herewith returned duly countersigned

(2) the amount for which the Estimate has been duly scrutinised by the Executive Engineer is Rs 11,100/-

(3) the Municipal Council have resolved on 27 6 1942 to sanction this estimate and to spread the execution of this work over two years and to provide half the amount of the Estimated Cost of the work each year

(4) The Council have also resolved to finance this work from out of the provision of Rs 6,000/- made for the specific purpose in the Budget for 1942-43 Copy of the Resolution is also appended

(5) There is no special difficulty for undertaking this work at any stage of the financial year since the work is to be carried out by the Concrete Association of India who have given repeated assurances that the work can be completed within two or three weeks at the most

(6) As to the payment of the second and third instalments of the Drainage Scheme Loan in the Current year, the ~~Xxxxxx~~ Minister for Local Self Government has assured the Council on 15-4-1942 that Government would pass favourable orders early in the matter of allowing this Council to commence the repayment of the Drainage Loan instalments as from October 1941, in view of the fact that the Council had to complete the payment of the last instalment of the Water Supply Loan in 1940

(7) The first instalment of the Drainage Loan has been actually paid in October 1941 on this basis and the Council is prepared to pay the 2nd instalment in October 1942

(8) The repayment of the Drainage Loan instalments will be affected by the consolidation of the different loans prayed for and promised to be granted as well as by the reduction of the Loan - portion in the amount originally advanced towards the Drainage Scheme, by making half the amount of the revised Estimate of Rs 1,91,700 an outright Government grant

(9) The urgency for Concreting the Nardipet Road is undisputed since it is impossible to make the Road dustproof or any other plan

I would therefore request you to kindly obtain very early sanction of Government for the Resolution of the Council to sanctioning the Estimate of Rs 11,100/- and to incur an expenditure of Rs 6,000/- during the current year for executing half the quantity of the estimated work

I have the honour to be,
Sir,
Your most obedient servant,

President,
Town Municipal Council,
